

Consultation for licensing application

5.0 stars

Posted by anonymous
January 22, 2018

I am applying for a professional license and needed some advice. Bob was timely in responding to my inquiry. He was extremely easy to talk to and took his time to understand my situation. I did not feel rushed. I felt understood. I found him insightful and I believe the advice he gave was sound. I needed some perspective from someone with experience and I got the guidance I was looking for in our consultation. I feel more confident in my application and if I require further assistance he will be my first consideration.
