I found Robert Bennett after scouring the internet looking for the perfect attorney, for my specific situation. Most attorney's would not even discuss my situation without charging a few hundred dollars, before I even know if they are the right attorney to address my situation with the Board of Law Examiners. Robert put my mind at ease within about 10 minutes, was very informative, knowledgeable, and will definitely be the attorney that gets my money when the time comes. I would recommend him to anyone without reservation.
