I called Mr. Bennett to inquire about some issues I had when applying for Occupational Therapy licensure. Mr. Bennett was gracious enough to take the time with me over the phone even before retaining counsel. I think this is an invaluable service, especially for professionals in the medical field.

This review is from a potential client who consulted with this attorney.
Consulted attorney

Robert S. Bennett's response: *“When a professional has a question regarding a licensing issue and we can answer it over the phone, we try to do so. Unfortunately, once we get into what was said in complaint or more detailed information is necessary, a phone conference is not adequate to address the issue or concern.”*
