I am a prospective law student applying to law schools in Texas with a less than perfect record. I have had academic issues as well as DWI issues. My main concern was if I would ever be able to practice law in Texas or would I be denied admission to sit for the Bar after graduating law school? I contacted Bob and gave him the details of my situation. He listened to my concerns and was very supportive. He explained to me exactly how the process works and the importance of being fully transparent about my background. Bob explained that people make mistakes but being honest and transparent about them is key. As long as I owned up to my past mistakes and demonstrated that I had made a positive change, he said I had a good chance of being accepted to sit for the Bar. Bob is truly a knowledgeable and caring individual. I would highly recommend him to any law students or graduates who have issues or questions regarding the Character and Fitness portion of their law school or State Bar application.

Robert S. Bennett's response: *“Whether it is a medical doctor before the Texas Medical Board or the USMLE Secretariat or teacher whose certificate is under attack, we try to defend all professionals the same : aggressively and with 45 years of licensing experience. We have been involved with hands-on experience in administrative-licensing hearings since 1975. Having been a federal trial attorney, intern and practicing in the Harris County District Attorney's Office with Skip Cornelius and Henry Oncken, served in the Department of Justice/United States Attorney's Office, and as corporate counsel for a Coca-Cola Bottler, this wealth of knowledge and experience can be put to use by you. Please give us a call.”*
